

Lab A Followup

You have received the following email from your colleague at the company where you work. Write a response to this email that describes your decision and why you made it. Your message is to a colleague, so it does not need to be excessively formal, but it should be clear, neat, and professional. Your colleague needs this information by the end of the day on February 10th, so that is when this assignment is due. Your colleague is a busy person, so your response should not be longer than 3-4 paragraphs.

This is an **individual assignment**.

You will be scored based on the strength of your justification for your decision-making and the professionalism of your communication. Your work should be formatted as an email message.

(Submit this on Moodle, don't actually send an email to chyin@mousemaze.org. That's not a real email address.)

Subject: Search Strategy

Dear [yourname],

This is Chloe Yin from the deployment team. My team is getting the presentation together for the investors next week, and we wanted to get your opinion on which search strategy we should recommend for the 1Prize mazes you've been working on and why. We can do a more complete follow-up when you're back in town next month, but this would help us out a lot. Thank you for your help with this.
